

KITSEM ENGINEERING SERVICES LIMITED

ABOUT US

Kitsem Engineering Services Ltd is a Kenyan engineering services company specializing in elevators, escalators and travelators, alongside complementary building technology and infrastructure solutions. We provide installation, maintenance, repair, integration and inspection services for commercial and residential multi-storey buildings.

Our technical capabilities extend beyond vertical transportation to include solar installation, electrical works, access control, CCTV installation, networking and construction works, allowing us to provide clients with integrated engineering solutions from a single service partner.

We work with a range of elevator and lift systems, including Schindler, KONE, OTIS, Mitsubishi, ThyssenKrupp, BLT, Fuji and other equipment, subject to technical assessment and project requirements.

MISSION, VISION & CORE VALUES

OUR MISSION

To provide high-quality, affordable engineering solutions with reliable technical support, responsive service and a strong commitment to customer satisfaction.

OUR CORE VALUES

- Safety first
- Quality
- Integrity
- Customer focus
- Reliability

OUR VISION

To become a trusted provider of engineering solutions in Kenya, delivering safe, efficient and reliable systems for modern buildings.

OUR SERVICES

- Lift installation & Maintenance
- Escalators and Travolators
- Solar installation
- Access control
- Networking

Kitsem Engineering Services Ltd provides professional lift installation, maintenance, repair and technical support for residential, commercial and multi-storey buildings. We work with different lift configurations and applications, providing solutions selected according to the building design, capacity requirements, usage and client needs.

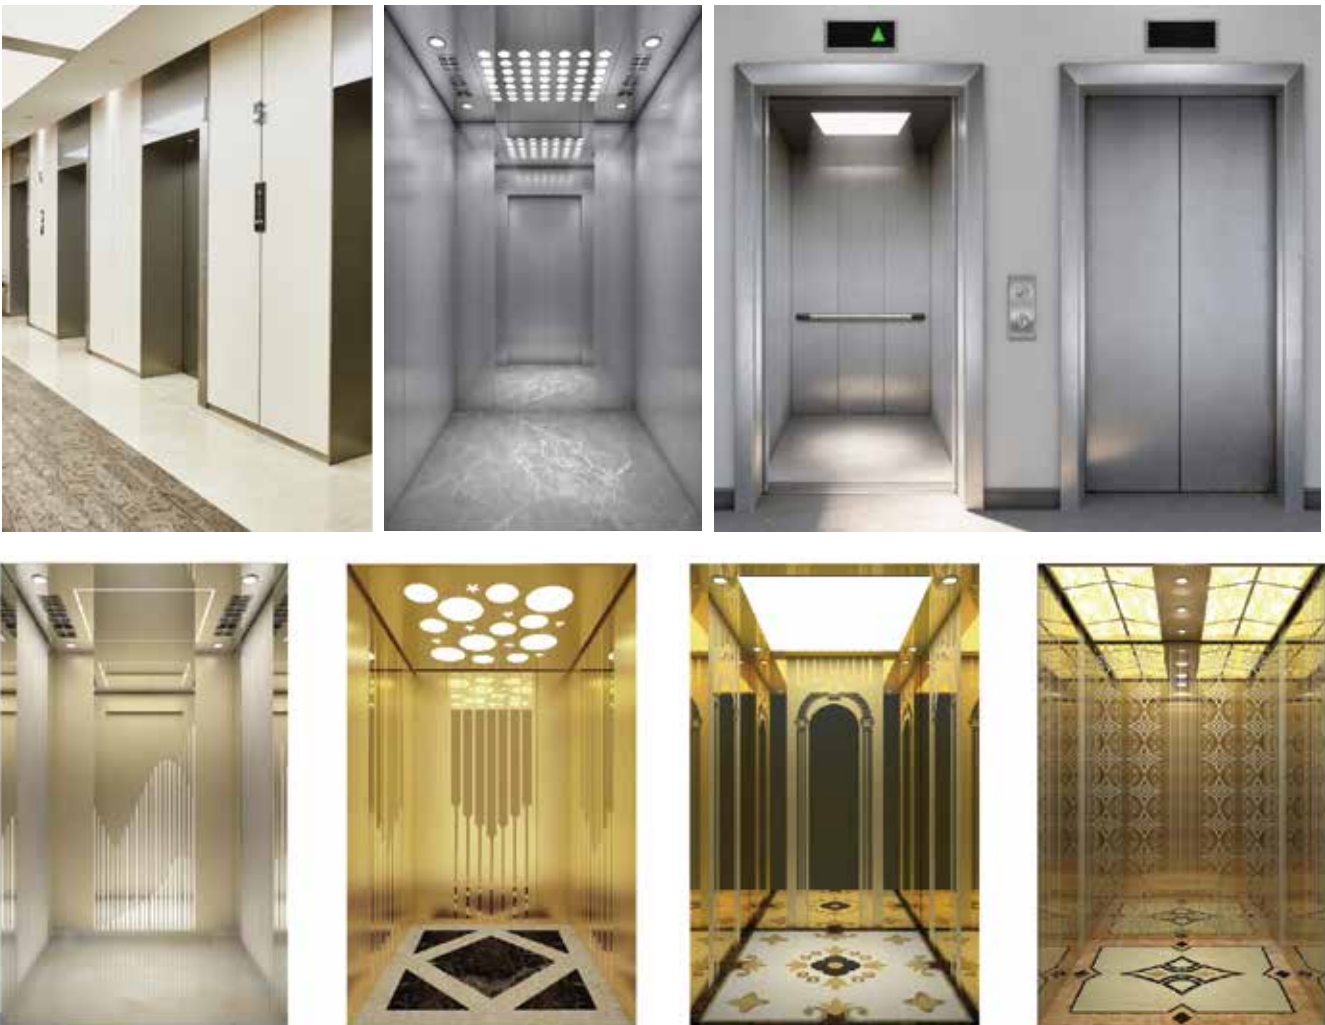

Our lift solutions

PASSENGER LIFT

Designed for the safe and comfortable movement of people in residential, commercial, institutional and multi-storey buildings.

Ideal for:

Apartments • Offices • Hotels • Hospitals • Commercial Buildings villas

HOME LIFT

Compact vertical transportation solutions designed for private residences and buildings where convenience, accessibility and efficient use of space are important.

Ideal for:

Private Homes • Villas • Luxury Residences • Duplexes

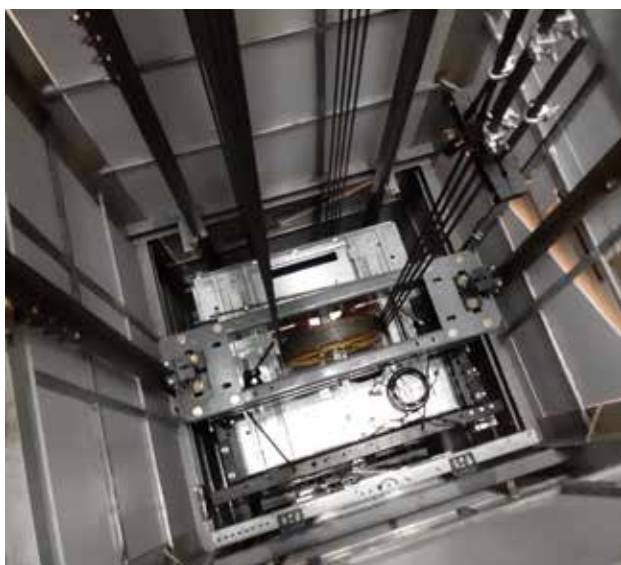

FREIGHT LIFT

Heavy-duty lifting solutions designed to transport goods, equipment and materials safely between different levels of a building.

Ideal for:

Warehouses • Factories • Hotels • Retail • Commercial Buildings

CAR LIFT

Specialized lifting systems designed to transport vehicles between different floors, making better use of limited parking space.

Ideal for:

Multi-Level Parking • Apartments • Commercial Buildings • Car Parks

MACHINE ROOM LIFT

Traditional lift systems incorporating a dedicated machine room to house the lifting equipment and associated components.

Suitable for: Apartments • Offices • Hotels • Modern Commercial Buildings

Lift installation & Maintenance

Regular lift maintenance keeps elevators safe, reliable and efficient. Kitsem Engineering Services Ltd provides preventive maintenance, inspections and technical support to identify faults early, reduce breakdowns and extend the lifespan of lift systems.

Our goal: safer lifts, less downtime and dependable performance.

ESCALATORS & TRAVELATORS

Moving people efficiently through modern spaces.

We provide installation, maintenance, repair and technical support for escalators and travelators designed for high-traffic environments.

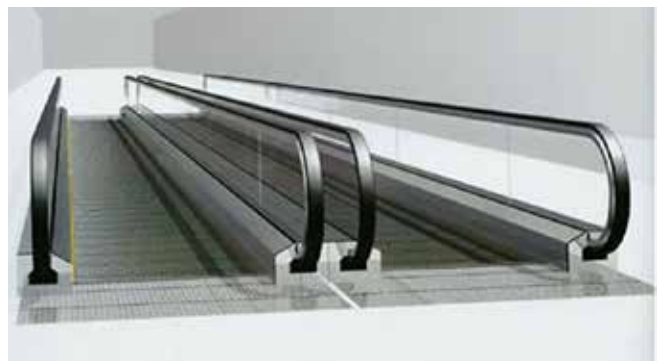

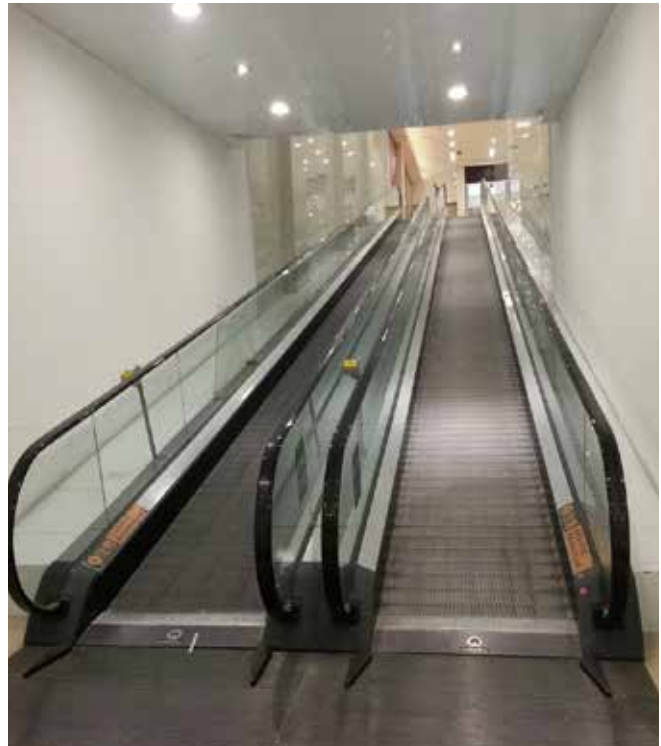

Our solutions are suitable for buildings where efficient and continuous movement of people is essential.

ESCALATOR SOLUTIONS

- Commercial Escalators
- Shopping Centre Escalators
- Public Building Escalators
- Indoor Escalators
- Outdoor Escalators

TRAVELATORS

- Shopping malls
- Airports
- Hotels
- Large commercial buildings
- Transport facilities

SOLAR INSTALLATION

We provide solar installation solutions for residential, commercial and other built environments.

We help clients explore reliable alternative energy solutions while improving energy efficiency and reducing dependence on conventional power sources.

Our solar services

- Site assessment
- Solar system installation
- System configuration
- Testing & commissioning
- Maintenance
- Troubleshooting

ACCESS CONTROL

We provides access control installation and integration for residential, commercial and institutional environments.

Our solutions help organizations control access to buildings and restricted areas while improving security and accountability.

Our access control solutions

- Card access
- Biometric access
- Pin / code access
- Door access systems
- Multi-door systems
- Integrated access control

NETWORKING & CONNECTIVITY

Modern organizations depend on reliable connectivity.

Kitsem Engineering Services Ltd provides network installation and infrastructure support for offices, commercial buildings, residential developments and other connected environments.

Our networking services

- Network installation
- Structured cabling
- Network equipment setup
- Network expansion
- Troubleshooting
- Maintenance

CCTV INSTALLATION

Kitsem Engineering Services Ltd provides professional CCTV installation and surveillance solutions for residential, commercial and institutional properties.

We design and install practical security systems that help clients monitor their premises, improve visibility and enhance overall security.

Our cctv services

- Site assessment.
- Camera installation
- System configuration
- Remote monitoring
- Testing & commissioning
- Maintenance & support
